General Treatment:	Seek medical attention if symptoms persist.
Special Treatment:	None
Important Symptoms:	None
Inhalation:	Remove victim to fresh air. Supply oxygen if breathing is difficult. Do not use mouth-to-mouth method if victim ingested or inhaled the substance. Give artificial respiration with the aid of pocket mask equipped with a one way valve or other proper respiratory medical device. Obtain medical attention immediately.
Ingestion:	Do not induce vomiting. Call a Poison Control Center immediately. Clean mouth with water and afterwards drink plenty of water.
Skin:	Wash affected area with mild soap and plenty of water. Obtain medical attention.
Eyes:	Flush eyes with water, blinking often for several minutes. Remove contact lenses if present and easy to do. Continue rinsing.

---

5. Firefighting Measures

---

Flammability:	Flammable. Dust can form an explosive mixture in air.
Extinguishing Media:	Special powder or extinguishing powder for metal fires. Do not use water, foam or carbon dioxide (CO <sub>2</sub> )
Spec. Fire Fighting Procedure:	Use full-face, self-contained breathing apparatus with full protective clothing to prevent contact with skin and eyes. See section 10 for decomposition products.

---

## 6. Accidental Release Measures

---

If Material Is Released/Spilled:	Wear appropriate respiratory and protective equipment specified in special protection information. Isolate spill area and provide ventilation. Vacuum up spill using a high efficiency particulate absolute (HEPA) air filter and place in a closed container for disposal. Take care not to raise dust. If possible, soak up with inert absorbent material
Environmental Precautions:	Should not be released into the environment. Do not flush into surface water or sanitary sewer system. Do not allow the material to contaminate the ground water system.

---

## 7. Handling and Storage

---

Handling Conditions:	Wash thoroughly after handling. Wear personal protective equipment. Avoid inhalation and ingestion. Avoid dust formation. May form combustible dust concentrations in air. Do not let it get in to eyes, on skin or on clothing. Do not ingest
Storage Conditions:	Store in a cool dry place in a tightly sealed container. Store apart from materials and conditions listed in section 10.
Work/Hygienic Maintenance:	Do not use tobacco or food in work area. Wash thoroughly before eating and smoking. Do not blow dust off clothing or skin with compressed air.
Ventilation:	Provide sufficient ventilation to maintain concentration at or below threshold limit.

---
